**Call for Participation**

We invite you to join us in **15th International Conference on Wireless & Mobile Network (WiMo 2023)**

This Conference is dedicated to addressing the challenges in the areas of wireless & mobile networks. The Conference looks for significant contributions to the Wireless and Mobile computing in theoretical and practical aspects. The Wireless and Mobile computing domain emerges from the integration among personal computing, networks, communication technologies, cellular technology, and the Internet Technology. The modern applications are emerging in the area of mobile ad hoc networks and sensor networks. This Conference is intended to cover contributions in both the design and analysis in the context of mobile, wireless, ad-hoc, and sensor networks. The goal of this Conference is to bring together researchers and practitioners from academia and industry to focus on advanced wireless and Mobile computing concepts and establishing new collaborations in these areas.

**Highlights of WiMo 2023 include:**

- 12th International Conference on Advanced Computer Science and Information Technology (ICAIT 2023)
- 12th International Conference on Cryptography and Information Security (CYPIS 2023)
- 12th International Conference on Information Technology Convergence and Services (ITCSE 2023)
- 12th International Conference on Digital Image Processing and Vision (ICDIPV 2023)
- 11th International Conference of Networks and Communications (NC 2023)
- 4th International Conference on Cloud, Big Data and IoT (CBIoT 2023)
- 4th International Conference on Artificial Intelligence and Machine Learning (CAIML 2023)
- 4th International Conference on Natural Language Computing Advances (NLCA 2023)

**Registration Participants**

Non-Author/Co-Author/Simple Participants (no paper)

**250 POUNDS (With proceedings)**
